From: William T Fujioka 
Chief Executive Officer

EXPENDITURE ANALYSIS OF TOP FIFTY PURCHASES COUNTYWIDE

The Internal Services Department (ISD) has prepared a report (attached) based on eCAPS expenditure data that shows the major areas where each department is doing the most purchasing. This is a summary of countywide eCAPS expenditure data for selected commodities for the period of November 2009 through November 2010. The summary identifies only the top (by dollar value) commodity class categories as such:

- 1) The top items by total spent;
- 2) Data from departments that are using eCAPS procurement; and
- 3) Purchase orders executed by ISD as the Purchasing Agent.

As one of the efficiency initiatives, each department and their respective budget analyst(s) are requested to review their departmental data for potential areas where purchases could be reduced or deferred (e.g. automobiles, replacement computer equipment, etc.). Any savings to net County cost depends on each department's applicable subvention percentages. Upon your review and analysis, the potential savings should be incorporated into the fiscal year 2011-12 Proposed Budget recommendations.

If you have any questions regarding your department's data, please contact Joe Sandoval of ISD at (323) 267-2109.
